

VFX Artist

About the Role:

We are seeking a talented VFX Artist to join our team and create breathtaking visual effects for cinematic productions. As a VFX Artist, you will be responsible for designing and implementing high-quality simulations and digital effects that seamlessly integrate with live-action footage and CGI environments.

Responsibilities:

- Execute seamless compositing of various layers, paying close attention to lighting, color grading, and integration.
- Design and create complex particle simulations, including fire, smoke, water, explosions, and magical effects.
- Perform rotoscoping, tracking, and clean-up tasks to prepare plates for final effects.
- Provide and receive feedback within the production pipeline to maintain the highest quality standards.
- Optimize simulations and renders to meet technical requirements and tight production schedules.
- Collaborate with other team members, including 3D artists, lighting leads, and directors, to ensure a cohesive visual style.
- Create motion graphics and digital effects for specialized sequences and UI elements.

Required Skills and Experience:

- Strong understanding of cinematography, film grain, and color science.
- Proficiency in software such as After Effects, Nuke and DaVinci Resolve etc.
- Strong attention to detail and a keen eye for timing, scale, and natural phenomena.
- Deep knowledge of movie VFX pipelines, including match-moving and camera tracking.
- Ability to create realistic and stylized effects depending on project needs.
- Ability to work under tight deadlines and adapt to the changing priorities of film production.

If you are a talented VFX Artist with a passion for creating stunning visuals, we encourage you to apply. To apply click on the [link](#) and fill up the form.
